

Plant identification guide activity sheet

Identification guides help us to be plant detectives.

We can use them to work out the names and features of different plants.

Have a look at the different types of identification guides on the website.

Which of them do you think is the most useful?

Have a look at the plants in your garden or surrounding area. Can you make a guide of your own? You could even make a book!

Challenge - you could add to this over several weeks as you discover more plants.

Your guide to your garden could include real plants.

This website will show you how to press flowers and leaves:

<https://www.nhm.ac.uk/discover/how-to-press-flowers.html>

You could include bark rubbings from trees:

This can be done:

With an adult, in a group
independently
Outside
Any age
